

FENIX NTM®

NANOTECH MATT MATERIAL
FOR INTERIOR DESIGN.

An abstract geometric composition featuring several overlapping planes and surfaces. The color palette is primarily dark grey and black, with a prominent light grey surface in the foreground and a vibrant blue surface in the background. The lighting creates strong shadows and highlights, emphasizing the three-dimensional nature of the forms. The overall aesthetic is clean, modern, and architectural.

FENIX NTM[®],
NANOTECH MATT MATERIAL
FOR INTERIOR DESIGN.
MADE IN ITALY.

A TIMELESS MATERIAL FOR NEVERENDING DESIGN STORIES.

FENIX NTM® is an innovative material created for interior design applications by Arpa Industriale.

It is suitable for both vertical and horizontal use.

The external surface of FENIX NTM involves the use of nanotechnology and it is characterized by next generation acrylic resins, hardened and fixed with Electron Beam Curing process.

With low light reflectivity, its surface is extremely opaque, anti-fingerprint and features a very pleasant soft touch.

FENIX NTM is suitable for different interior design applications: kitchen, hospitality, healthcare, transportation, bathrooms, furniture (tables, bookshelves, partitions, chairs).

OPEN YOUR MIND AND CREATE SURFACES FOR NEW THOUGHTS.

FENIX NTM® è un materiale innovativo di Arpa Industriale creato per l'interior design, adatto ad applicazioni sia verticali sia orizzontali. La parte esteriore di FENIX NTM è ottenuta con l'ausilio di nanotecnologie ed è caratterizzata da una superficie trattata con resine acriliche di nuova generazione, indurite e fissate attraverso il processo di Electron Beam Curing. Con una bassa riflessione della luce, la sua superficie è estremamente opaca, anti impronte digitali e piacevolmente soft touch. FENIX NTM è adatto alle molteplici applicazioni tipiche dell'interior design: cucine, hospitality, healthcare, trasporti, bagni, elementi di arredo (tavoli, librerie, partizioni, sedie).

FENIX NTM® est un produit innovant créé par Arpa Industriale pour des applications de design intérieur. Il est parfaitement adapté aux applications verticales et horizontales. La surface décorative de FENIX NTM est obtenue par l'utilisation de la nanotechnologie combinée à des résines acryliques de nouvelle génération, durcies par un processus de polymérisation par faisceau électronique. Avec une très faible réflectivité, sa surface est extrêmement opaque, anti-traces de doigts et offre un toucher très soyeux. FENIX NTM est recommandé pour de nombreuses applications de design intérieur telles que cuisines, hôtellerie, hôpitaux, transports, salles de bains, mobilier (tables, bibliothèques, cloisons, chaises).

FENIX NTM® ist ein bahnbrechendes Material kreiert von Arpa speziell für den Einsatz im Interiorbereich. Es ist sowohl für vertikale als auch horizontale Applikationen geeignet. Die dekorative Oberfläche wird durch eine spezielle Nanotechnologie und den Einsatz eines besonderen Herstellverfahrens – der Elektronenstrahlhärtung – veredelt. Zudem wurde eine neue Generation von Acrylharz hierfür von Arpa entwickelt, welcher in unserem Werk selbst hergestellt wird. So stellen wir durch eigene Herstellung aller Komponenten die gleichbleibend hohe Qualität von FENIX NTM sicher. Es zeichnet sich durch eine sehr geringe Lichtreflexion aus, ist dadurch extrem matt und verleiht der Oberfläche einen weichen, samtigen Touch. FENIX NTM eignet sich für die vielseitigsten Anwendungen im Innenbereich: Küche, Sanitär, Transport, Bad und Möbel (Tische, Regale, Abtrennungen, Stühle).

FENIX NTM® es un material innovador creado por Arpa Industriale para aplicaciones de diseño de interior, adecuado para aplicaciones tanto verticales como horizontales. La superficie exterior de FENIX NTM se obtiene con la aplicación de la nanotecnología y se caracteriza por el uso de resinas acrílicas que son endurecidas y fijadas a través de un proceso de Electron Beam Curing. Con una baja reflectancia de la luz, su superficie es extraordinariamente mate, antihuella digital, agradable y suave al tacto. FENIX NTM es adecuado para múltiples aplicaciones del diseño de interior: cocina, hostelería, sanidad, transportes, baños, muebles (mesas, estanterías, tabiques, sillas).

MATT AND SOFT TOUCH SURFACE.

Thanks to the use of last generation acrylic resins, FENIX NTM's surface is extremely closed.

The irregular surface topography has as a result a very low light reflectivity (a surface specular reflectance of 1,5 at 60°) and the soft touch effect.

Grazie all'uso di resine acriliche di ultima generazione, la superficie di FENIX NTM risulta essere estremamente chiusa. La topografia irregolare della superficie ha come risultato una bassa riflessione della luce (valore di riflessione speculare: 1,5 a 60°) e l'effetto soft touch.

Grâce à l'utilisation de résines acryliques de dernière génération, la surface de FENIX NTM est extrêmement fermée. La topographie irrégulière a comme résultat une très faible réflectivité de la lumière (réflectance de la surface : 1,5 à 60°) et le toucher soyeux.

Dank einer neuen Generation Acrylharz bietet FENIX NTM eine extrem geschlossene Oberfläche und eine besonders weiche Haptik. Die unebene Oberfläche im Nanobereich sorgt zudem für eine besonders geringe Lichtreflexion (1,5 bei einem Winkel von 60 Grad).

Gracias a la utilización de resinas acrílicas de última generación, la superficie de FENIX NTM es extremadamente densa. Su topografía irregular resulta en una reflectancia mínima de la luz (reflectancia especular de superficie: 1,5 a 60°) y un efecto suave al tacto.

250x Tilted view

1000x Tilted view

2500x Tilted view

FEATURES

LOW LIGHT REFLECTIVITY, EXTREMELY MATT SURFACE

THERMAL HEALING OF MICROSCRATCHES

ANTI-FINGERPRINT

SOFT TOUCH

RESISTANCE TO SCRATCHES AND ABRASION

RESISTANCE TO DRY HEAT

HIGH RESISTANCE TO ACID SOLVENTS AND HOUSEHOLD REAGENTS

ENHANCED ANTI-BACTERIAL PROPERTIES

Bassa riflessione della luce, superficie estremamente opaca
Riparabilità termica dei micrograffi
Anti-impronta
Morbidezza al tatto
Resistenza ai graffi e all'abrasione
Resistenza al calore secco
Elevata resistenza a solventi acidi e ai reagenti di uso domestico
Alta attività di abbattimento della carica batterica

Geringe Lichtreflexion, extrem matte Oberfläche
Thermische Bearbeitung von Kratzern möglich
Keine Fingerabdrücke
Weicher Touch
Resistent gegen Kratzer und Abrieb
Resistent gegen trockene Hitze
Resistent gegen säurehaltige und alle haushaltsüblichen Reiniger
Verbesserte antibakterielle Eigenschaften

Faible réflectivité, surface extrêmement mate
Réparation thermique des micro-rayures
Aucune trace de doigts
Toucher soyeux
Résistance aux rayures et à l'abrasion
Résistance à la chaleur sèche
Grande résistance aux solvants et nettoyants ménagers
Propriétés antibactériennes renforcées

Reflectancia mínima de la luz, superficie extremadamente mate
Reparabilidad térmica de microarañazos
Anti-huella digital
Suave al tacto
Resistencia a los arañazos y a la abrasión
Resistencia al calor seco
Alta resistencia a disolventes ácidos y reactivos para uso doméstico
Propiedad anti-bacterias reforzada

FEATURES

Hygienic

Igienico
Hygiène
Hygienisch
Higiénico

Resistance to impact

Resistenza all'urto
Résistance aux chocs
Schlagfest
Resistencia al impacto

Suitable for contact with food

Idoneo al contatto con gli alimenti
Agréé pour le contact alimentaire
Geeignet für den Kontakt mit Lebensmitteln
Apto para el contacto con alimentos

Lightfastness

Stabilità alla luce
Résistance à la lumière
Lichtecht
Estabilidad a la luz

Easy to clean

Facile da pulire
Facilité d'entretien
Einfach zu Reinigen
Fácil de limpiar

Excellent intensity and colour depth

Eccezionale intensità e profondità del colore
Profondeur et intensité des couleurs
Exzellente Farbtiefe und dekorativer Ausdruck
Excelente intensidad y profundidad del color

Mold-resistant

Antimuffa
Résistance aux moisissures
Schimmelsicher
Antioxidante libre de moho

Rub resistance

Resistenza allo strofinamento
Résistance au frottement
Wischfest
Resistente a la fricción regular

Antistatic

Antistatico

OVER 60 YEARS OF RESEARCH, TECHNOLOGY AND INNOVATION.

Since 1954 Arpa Industriale has been designing and manufacturing panels with very high quality HPL technology for the most diverse applications: from architecture to interior design, from healthcare to shipyards, from transport to hospitality, from retail to kitchens.

Dal 1954, Arpa progetta e produce pannelli con tecnologia HPL di alta qualità per le più svariate destinazioni d'uso: dall'architettura al design d'interni, dall'healthcare alla cantieristica navale, dal trasporto all'hospitality, dal retail al kitchen.

Depuis 1954, Arpa Industriale conçoit et fabrique des panneaux HPL haut de gamme pour les applications les plus diverses : des projets architecturaux aux agencements intérieurs, des établissements médicaux aux chantiers navals, du transport à l'hôtellerie, des boutiques aux cuisines.

Seit 1954 fertigt und entwickelt Arpa Industriale hochwertige HPL- und Vollkernplatten für die Innenanwendung: von der Küche bis zu medizinischen Bereichen, im Laden- und Messebau, im Schiffsbau und in Sanitärbereichen, im Gastro- und Hotelbereich - vielfältigste Anwendungen für Objekt und Architektur.

Desde 1954, Arpa Industriale diseña y fabrica paneles HPL con tecnología de la más alta calidad para los más diversos usos y aplicaciones: en arquitectura y diseño de interiores, para astilleros, cocinas, para los sectores sanitario, de hotelería y turismo, de transportes, de venta al por menor...
